

01 / SPONSOR PACKAGE

YOUR BRAND ON THE BUILD.

Partner with North York's rookie FRC team in our first competition season. Your support funds the robot, tools, travel, mentorship, and the student engineers who will carry this work forward.

BACKED BY WEST COAST PRODUCTS

02 / THE OPPORTUNITY

A TEAM WORTH BACKING IN YEAR ONE.

We are building a serious engineering program for students who want real ownership, real tools, and a team standard they can grow into.

STUDENTS GET THE WORK

CAD, programming, fabrication, strategy, media, business operations, sponsor communication, and leadership. Students do not just watch. They build.

SPONSORS GET THE STORY

Your logo travels on the robot, pit, apparel, website, and social channels. More importantly, your company is tied to a visible STEM program in your own community.

MENTORSHIP COMPOUNDS

SHFT is backed by mentors with more than a decade of FRC and VEX experience, coaching a program built to last.

COMMUNITY SEES IT

Competitions, demos, open houses, school events, and sponsor updates turn support into visible momentum across the season.

BRAND VISIBILITY

Robot, shirts, pit banner, website, sponsor wall, social, and event materials.

SKILLS BUILT

Your support gives students real engineering, fabrication, and software skills.

LOCAL PROOF

A concrete STEM investment families, students, and community partners can see.

03 / STRATEGIC BACKING

SERIOUS BACKING FROM DAY ONE.

SHFT launches with mentors who have coached FRC and VEX for more than a decade, and with the backing of West Coast Products, one of the most established manufacturers in FRC. New team, experienced hands.

BACKED BY WCP

West Coast Products, one of FRC's most established parts manufacturers, is backing SHFT. Few rookie teams launch with this kind of support.

YOUR AUDIENCE

@shftrobotics is live and growing from 100 followers on day one. Founding sponsors get in early, seen by every team, family, and judge at the Ontario events we attend.

SHFT is a new team. We would rather show you the program than oversell it: come to an open house, meet the mentors, watch the students work.

04 / FUNDING MAP

EVERY DOLLAR MOVES THE ROBOT FORWARD.

Our first competition season runs on roughly \$140,000: registration, parts, tools, travel, and the shop behind it. Sponsors make the season possible and keep the student experience serious from day one.

CASH SUPPORT

Directly funds purchases, registration, shipping, and event costs.

IN-KIND SUPPORT

Materials, machining, printing, tools, food, transportation, space, and services count toward tier value.

MENTOR SUPPORT

Engineers, designers, machinists, operators, marketers, and project managers can mentor students.

EVENT SUPPORT

Host a demo, sponsor an open house, or bring SHFT to a company STEM day.

How funds are handled: Contributions support a youth robotics program. We confirm the payee and any tax treatment with you directly when you come on board, and every sponsor receives an acknowledgment and an invoice for their records.

05 / PARTNERSHIP LEVELS

CHOOSE A TIER BELOW.

Each one buys a different level of logo placement and access. Benefits are cumulative. In-kind contributions are welcomed and credited by fair market value when they offset real season costs.

Benefits reflect our planned first competition season. Some deliverables debut as the season ramps up.

TIER	SUPPORT	RECOGNITION
FOUNDING PARTNER	\$10,000+	Largest logo placement, first position, on our first competition robot (debuting the 2027 season, per FIRST robot rules), plus pit banner, team apparel, website, sponsor wall, season highlight recap (photo or video), social launch post, and open house materials. Includes a robot demo once our competition robot is built, or a student tech showcase.
PLATINUM	\$5,000+	Large logo placement on our first competition robot (per FIRST robot rules), plus pit banner, team apparel, website, sponsor wall, and a sponsor social feature. Includes a workshop tour or sponsor-site demo when the schedule allows.
GOLD	\$2,500+	Medium logo placement on the pit banner, team apparel, website, and sponsor wall, plus a social thank-you and a season recap update.
SILVER	\$1,000+	Small logo placement on pit banner or team apparel, website sponsor listing, sponsor wall, and social thank-you.
BRONZE	\$500+	Name or logo listing on website and sponsor wall, plus a social thank-you and end-of-season appreciation note.
COMMUNITY	\$250+	Name listing on the website community wall and a team thank-you note. Built for families, alumni, and local supporters.

06 / LOGO PLACEMENT

WHERE YOUR LOGO LIVES.

Illustrative mockup. Sponsor logos shown are placeholders. Robot placement is reserved for Founding Partner and Platinum tiers, per FIRST robot rules.

SPONSOR WALL · SLOTS OPEN

07 / SPONSOR EXPERIENCE

YOUR LOGO GOES WHERE PEOPLE ACTUALLY LOOK.

The robot, the pit, the apparel, the season recap. SHFT creates real touchpoints that make your support visible to students, employees, families, and the community.

ROBOT DEMO

Bring our competition robot to your office, plant, school event, or community day for a student-led demo once it is built.

OPEN HOUSE

Invite sponsors to see the shop, meet students, and watch prototypes become competition hardware.

SEASON UPDATES

Send sponsor updates during build season and a polished recap after competition.

REAL STUDENT SKILLS

Students gain hands-on engineering, fabrication, software, and project skills they carry into university and careers.

CO-BRANDED MOMENTS

Feature sponsor support in kickoff, reveal, open house, and competition recap content.

IN-KIND SHOWCASE

Show how donated material, machining, tools, food, or services changed the season.

WHAT MAKES SHFT DIFFERENT

Sign on now and your logo is on our first robot reveal, first apparel run, and launch video. Your support will be visible as the program becomes real.

WHAT WE NEED FROM SPONSORS

A high-resolution logo, website URL, contact name, approved recognition name, contribution details, and any restrictions for public posts.

Student appearances are supervised by team mentors and follow our school and FIRST safety guidelines.

READY TO SPONSOR SHFT?

Start with a short conversation. We will confirm the right tier, collect your logo, and make sure every recognition detail is correct before anything goes public.

CONTACT

Sponsorship contact: Malhar Soni, Head Coach, Team SHFT

SPONSOR CHECKLIST

- Choose a tier or describe in-kind support.
- Send SVG, PNG, or vector logo files.
- Confirm sponsor display name and URL.
- Confirm payment or donation-processing details.

We will send an invoice and payment instructions once you choose a tier.

GOOD SPONSOR FITS

Engineering, manufacturing, software, trades, logistics, design, education, finance, local business, food, printing, transportation, and community foundations.

BEST TIMING

Our team's first season of activities begins September 10, 2026. Commit before then for founding-sponsor placement on the first robot, pit, and apparel. Late sponsors are welcomed into the next cycle.
