

01 / SPONSOR PACKAGE

BUILD THE FUTURE ONE SHFT AT A TIME.

Partner with the Ontario FRC team built to compete from day one.
Your support funds the robot, tools, travel, mentorship, and the
student engineers who will carry this work forward.

INNOVATE. BUILD. COMPETE.

2025

PROGRAM FOUNDED

FRC

GLOBAL ROBOTICS COMPETITION

7558

ALT-F4 SISTER-TEAM SUPPORT

02 / THE OPPORTUNITY

A SERIOUS STEM PROGRAM NEEDS SERIOUS PARTNERS.

SHFT is not another after-school robotics club. We are building a professional-grade engineering program for students who want real ownership, real tools, and a team standard they can grow into.

STUDENTS GET THE WORK

CAD, programming, fabrication, strategy, media, business operations, sponsor communication, and leadership. Students do not just watch. They build.

SPONSORS GET THE STORY

Your logo travels on the robot, pit, apparel, website, and social channels. More importantly, your company is tied to a clear local talent pipeline.

MENTORSHIP COMPOUNDS

SHFT is backed by mentors with proven FRC experience and a sister-team relationship with Team 7558 ALT-F4, one of Canada's fastest-rising programs.

COMMUNITY SEES IT

Competitions, demos, open houses, school events, and sponsor updates turn support into visible momentum across the season.

BRAND VISIBILITY

Robot, shirts, pit banner, website, sponsor wall, social, and event materials.

RECRUITING SIGNAL

Meet future engineers, operators, designers, programmers, and builders early.

LOCAL PROOF

A concrete STEM investment families, students, and community partners can see.

03 / FUNDING MAP

EVERY DOLLAR MOVES THE ROBOT FORWARD.

FRC is one of the most resource-intensive STEM programs in high school. Sponsors make the season possible and keep the student experience serious from day one.

ROBOT PARTS	Drive, structure, mechanisms	TRAVEL	Transport and logistics
ELECTRONICS	Control system, sensors	FIELD ELEMENTS	Practice and testing
TOOLS	Fabrication and repair	SAFETY	PPE and shop systems
REGISTRATION	Official FRC events	OUTREACH	Demos and open house

CASH SUPPORT

Directly funds purchases, registration, shipping, and event costs.

IN-KIND SUPPORT

Materials, machining, printing, tools, food, transportation, space, and services count toward tier value.

MENTOR SUPPORT

Engineers, designers, machinists, operators, marketers, and project managers can mentor students.

EVENT SUPPORT

Host a demo, sponsor an open house, or bring SHFT to a company STEM day.

Draft note: before public launch, replace this qualitative map with SHFT's approved season budget and donation-processing details.

04 / PARTNERSHIP LEVELS

CHOOSE THE LEVEL THAT FITS YOUR IMPACT.

Benefits are cumulative. In-kind contributions are welcomed and credited by fair market value when they offset real season costs.

TIER	SUPPORT	RECOGNITION
FOUNDING PARTNER	\$10,000+	Premier logo placement on robot, pit banner, team apparel, website, sponsor wall, season video, social launch post, and open house materials. Includes company robot demo or student tech showcase.
PLATINUM	\$5,000+	Large logo placement on robot, pit banner, team apparel, website, sponsor wall, and sponsor social feature. Includes workshop tour or sponsor-site demo when schedule allows.
GOLD	\$2,500+	Medium logo placement on robot or pit banner, team apparel, website, sponsor wall, social thank-you, and season recap update.
SILVER	\$1,000+	Small logo placement on pit banner or team apparel, website sponsor listing, sponsor wall, and social thank-you.
BRONZE	\$500+	Name or logo listing on website and sponsor wall, plus a social thank-you and end-of-season appreciation note.
COMMUNITY	\$250+	Name listing on the website community wall and a team thank-you note. Built for families, alumni, and local supporters.

05 / SPONSOR EXPERIENCE

MAKE THE PARTNERSHIP VISIBLE.

Great sponsorship is more than a logo. SHFT can create real touchpoints that make your support visible to students, employees, families, and the community.

ROBOT DEMO

Bring the robot to your office, plant, school event, or community day for a student-led demo.

OPEN HOUSE

Invite sponsors to see the shop, meet students, and watch prototypes become competition hardware.

SEASON UPDATES

Send sponsor updates during build season and a polished recap after competition.

TALENT PATHWAY

Connect students with real engineering, manufacturing, software, design, and operations career stories.

CO-BRANDED MOMENTS

Feature sponsor support in kickoff, reveal, open house, and competition recap content.

IN-KIND SHOWCASE

Show how donated material, machining, tools, food, or services changed the season.

WHAT MAKES SHFT DIFFERENT

Founding sponsors are early enough to shape the story. Your support will be visible as the program becomes real.

WHAT WE NEED FROM SPONSORS

A high-resolution logo, website URL, contact name, approved recognition name, contribution details, and any restrictions for public posts.

06 / JOIN THE BUILD

READY TO SPONSOR SHFT?

Start with a short conversation. We will confirm the right tier, collect your logo, and make sure every recognition detail is correct before anything goes public.

SPONSOR CHECKLIST

- ☐ Choose a tier or describe in-kind support.
- ☐ Send SVG, PNG, or vector logo files.
- ☐ Confirm sponsor display name and URL.
- ☐ Confirm payment or donation-processing details.

GOOD SPONSOR FITS

Engineering, manufacturing, software, trades, logistics, design, education, finance, local business, food, printing, transportation, and community foundations.

BEST TIMING

Commit before kickoff and before apparel production for full current-season benefits. Late-season sponsors are still welcomed and carried into the next cycle.

PARTNER WITH SHFT.

HELP STUDENTS BUILD WHAT COMES NEXT.
